

# RPA WORKSHOP

Co-hosted by AGA and AFFIRM

AGA and AFFIRM are planning a virtual Robotic Process Automation (RPA) Workshop on June 25. The purpose of the workshop is to inform participants about best uses for RPA, how agencies are leveraging RPA to solve processing bottlenecks, and what agencies (and firms) are leading the way in RPA design and usage. Learn how the CFO and CIO communities are working together to implement RPA quickly, effectively and safely.

The workshop will include presentations as well as facilitated virtual breakouts where we move from academic discussions to “how-to” explanations complete with checklists and examples. The facilitated virtual breakouts will enhance opportunities for sharing best practices (commercial and government), finding answers to nagging questions, and building your personal network across government.
