

Manish Thapa is majoring in Accounting at Morgan State University, graduating in December 2020 with 150 credits. I am honored to serve as President of Beta Alpha Psi honorary fraternity. It is always exhilarating and motivating to serve those around me through leadership, friendships, peer-mentorship, companionship and tutoring; helping to build community by learning with and from others, through our shared and individual experiences. I believe big opportunities to serve come once in a while, but we are often given smaller opportunities, to which we should still give our very best. Indeed, I met with some of the most astonishing people in our community working every day to make an impact on other people's lives and giving back to the community.
