Upcoming Events for Topeka AGA

March 9, 2017 – 1 CPE

Katrin Osterhaus, CIA, CGAP, CPMP – IT Audit Manager for the Legislative Division of Post Audit

IT Audits of Kansas State Agencies – Overview of Audits and Summary of Findings

It seems like every day another company is in the news for a security breach. Have you ever wondered how state agencies in Kansas stack up with regard to keeping critical data safe and secure? To help the public understand the current state of IT security in Kansas, the Legislative Division of Post Audit recently published a report summarizing the results of its IT security audits of 20 state agencies conducted over the past three years. In this session, we will discuss how these audits are conducted and describe common security problems we found at those state agencies.

AGA offers virtual attendance for many of its national events. Virtual attendance allows those with limited travel budgets to participate and earn CPE.

Why Choose the Virtual Attendee Option?

- **No travel required** — Watch key educational sessions in the comfort and convenience of your home or office.
- **Participate despite busy schedule or budget restraints** — virtual attendance offers a full-scale online educational experience.
- **Earn CPEs** — General sessions and selected popular breakout sessions are available via live-stream.
- **On-demand recordings** — Virtual attendees have access to on-demand session recordings for up to one year after the event at no additional cost. No need to alter your schedule to view a particular session... access the recording at your leisure!
- **Truly participate** — Virtual attendees can post questions during each session and participate in discussions in real-time via chat rooms.
