Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2019 and 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Northern Virginia Chapter, Association of Government Accountants (NOVAGA) is a nonprofit corporation that was granted a charter under the Association of Government Accountants and formed under the laws of the Commonwealth of Virginia in June 1969, with a purpose to serve professionals in the government financial management community by providing quality education, fostering professional development and certification, and supporting standards and research to advance government accountability.

Basis of Accounting

The financial statements of the NOVAGA have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

In May 2014, the FASB issued a standard on Revenue from Contracts with Customers. This standard implements a single framework for recognition of all revenue earned from customers. This framework ensures that entities appropriately reflect the consideration to which they expect to be entitled in exchange for goods and services by allocating the transaction price to identified performance obligations and recognizing revenue as performance obligations are satisfied. Qualitative and quantitative disclosures are required to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The standard is effective for fiscal years beginning after December 15, 2017. NOVAGA is evaluating the impact this will have on the combined financial statements beginning in fiscal year 2018, if applicable.

In April 2015, the FASB issued a standard on Simplifying the Presentation of Debt Issuance Costs. This standard requires all costs incurred to issue debt to be presented in the statement of financial position as a direct deduction from the carrying value of the associated debt liability. The standard is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. NOVAGA is evaluating the impact this will have on the combined financial statements beginning in fiscal year 2017, if applicable.

In May 2015, the FASB issued a standard on Fair Value Measurement: Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share (“NAV”) as a practical expedient. The standard is effective for non-public entities for interim and annual reporting periods beginning after December 15, 2016 and should be applied retrospectively. Early application is permitted. NOVAGA is evaluating the impact this will have on the combined financial statements beginning in fiscal year 2017, if applicable.

In January 2016, the FASB issued a standard on Financial Instruments—Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities. The standard is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted for all financial statements of fiscal years that have not yet been issued. NOVAGA is evaluating the impact this will have on the combined financial statements beginning in the fiscal year 2019, is applicable.

In February 2016, the FASB issued a standard on Leases. The standard requires recognition of rights and obligations arising from lease contracts, including existing and new arrangements, as assets and liabilities on the statement of financial position. The standard is effective for annual reporting periods beginning after December 15, 2018. NOVAGA is evaluating the impact this will have on the combined financial statements beginning in fiscal year 2019, if applicable.

In August 2016, the FASB issued a standard on Presentation of Financial Statements for Not-for-Profit Entities, which made targeted changes to the not-for-profit financial reporting model. The new ASU marks the completion of the first phase of a larger project aimed at improving not-for-profit financial reporting. Under this standard, net asset reporting was streamlined and clarified. The prior three-category classification of net assets was replaced with a simplified model that combines temporarily restricted and permanently restricted into a single category called "net assets with donor restrictions." A second category of net assets, "net assets without donor restrictions" is used for net assets not subject to donor-imposed restrictions. The guidance for classifying deficiencies in endowment funds and on accounting for the lapsing of restrictions on gifts to acquire property, plant, and equipment have also been simplified and clarified. New disclosures highlight restrictions on the use of resources that make otherwise liquid assets unavailable for meeting near-term financial requirements. Not-for-profits will continue to have flexibility to decide whether to report an operating subtotal and if so, to self-define what is included or excluded. However, if the operating subtotal includes internal transfers made by the governing board, transparent disclosure must be provided. The ASU also imposes several new requirements related to reporting expenses, including providing information about expenses by their natural classification. The standard is effective for fiscal years beginning after December 15, 2017.

Basis of Presentation

NOVAGA financial statements follow accounting standards of not-for-profit entities in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 958-205, Not-for-Profit Entities Presentation. Under those standards, NOVAGA is required to report information regarding its financial position and activities in two classes of net assets: net assets with donor restrictions and net assets without donor restrictions. NOVAGA's net assets have been classified and reported as follows:

- Net Assets with Donor Restrictions – Net assets that are subject to donor-imposed restrictions (donors include other types of contributors, including makers of certain grants). There were no net assets with donor restrictions reported in June 30, 2019 and 2018.
- Net Assets without Donor Restrictions – The part of net assets that is not subject to donor-imposed restrictions (donors include other types of contributors, including makers of certain grants).

Cash and Cash Equivalents

NOVAGA defines cash and cash equivalents as cash on hand, demand deposits and short-term investments with maturities of three months or less when purchased. The carrying amount of cash equivalents approximates fair value. Additional information regarding the NOVAGA's fair value methodologies for investments is provided in note 5, Fair Value Measurements.

Investments

Investments are stated at fair value in the statement of financial position. The change in unrealized appreciation or depreciation of investments is reflected in the statements of activities. Investment income includes interest and dividend income, realized and unrealized gains and losses, and are recognized as revenue and reported in the consolidated statement of activities and changes in net assets. Additional information regarding the NOVAGA's fair value methodologies for investments is provided in note 5, Fair Value Measurements. These valuations necessarily involve assumptions and estimation methods which are subject to uncertainty, and therefore the estimates could differ materially from actual results. NOVAGA reviews and evaluates the valuation methods and assumptions used in determining the fair value of the investments.

Northern Virginia Chapter Association of Government Accountants

Accounts Receivable

Accounts Receivables are booked when invoiced or when commitments for contributions are made. NOVAGA uses the direct write-off method for uncollectible accounts receivable, as opposed to the allowance method, because of the varying degree of collectability from period to period. Using the allowance method would cause accounts receivable to materially vary from year to year. Further, the majority of accounts receivable recognized consists of unconditional pledges or membership dues, which materially vary from year to year, but may be easily justified as to collectability. Therefore, the direct write-off method more accurately reflects the economic phenomena of NOVAGA. In fiscal year ending June 30, 2019, there were no bad debts expensed.

Federal Income Taxes

NOVAGA is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code. This section allows an organization to be exempt if it operates exclusively to promote social welfare. NOVAGA has no income subject to taxation as unrelated business income.

Use of Estimates

The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant items subject to such estimates and assumptions include collectability of accounts receivable and fair value measurement. Actual results could differ materially, in the near term, from the amounts reported.

NOTE 2: REVENUE

Revenue from unrestricted contributions is recognized when pledged. NOVAGA reports gifts of cash and other assets as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Donor restricted contributions, whose restrictions are met in the same reporting period, are reported as net assets without donor restrictions. Revenue from contracts is recognized as the related qualifying expenses are incurred. Revenue is deferred when funds are received but not yet expended for the contractual purpose.

NOTE 3: ALLOCATION OF JOINT COSTS

In 2018, NOVAGA conducted membership development activities that included solicitation of membership dues and solicitation of contributions. Those activities included Chapter meetings, special networking events, and membership relations materials. The costs of conducting those activities included a total of \$17,702 of joint costs, which are not specifically attributable to particular components of the activities. These joint costs were allocated as follows.

Chapter meetings	\$10,322
Supplies for Charter meetings)	289
Networking Events	6,971
Membership Relations	120
Total	<u>\$17,702</u>

NOTE 4: CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject NOVAGA to significant concentrations of credit risk principally consist of cash and cash equivalents, investments, and accounts receivable. NOVAGA maintains bank accounts at an institution that is insured by the Federal Deposit Insurance Corporation (FDIC). The entire balance of cash, cash equivalents, and investments on deposit is thereby insured up to \$250,000.

NOTE 5: FAIR VALUE MEASUREMENTS

Authoritative guidance on fair value measurements establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Observable inputs reflect market data obtained from sources independent of NOVAGA and unobservable inputs reflect management’s assumptions about how market participants would value an asset or liability based on the best information available. NOVAGA follows the guidance and adopts a three-level hierarchy which prioritizes the inputs, of which the first two are considered observable and the last unobservable. The three levels of the fair value hierarchy under the authoritative guidance are as follows:

- Level 1 is based upon quoted prices in active markets that NOVAGA has the ability to access for identical assets or liabilities. Market price data is generally obtained from exchange or dealer markets. NOVAGA does not adjust the quoted price for such assets and liabilities.
- Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers and brokers.
- Level 3 is based on valuation techniques that use significant inputs that are unobservable as they trade either infrequently or not at all.

A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. NOVAGA assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer. There were no transfers among Levels 1, 2 and 3 during the fiscal year.

The following table presents the financial instruments carried at fair value as of June 30, 2019, by caption on the statement of financial position based on the valuation hierarchy defined above:

	Quoted Prices in Active Markets for Identifiable Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash Equivalent		\$ 78,455		\$ 78,455
Investment				
Certificate of Deposit		\$ 5,628		\$ 5,628

Northern Virginia Chapter Association of Government Accountants

The following table presents the financial instruments carried at fair value as of June 30, 2018, by caption on the statement of financial position based on the valuation hierarchy defined above:

	Quoted Prices in Active Markets for Identifiable Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Cash Equivalent		\$ 55,939		\$ 55,939
Investment				
Certificate of Deposit		\$ 5,628		\$ 5,628

NOTE 6: SUBSEQUENT EVENTS

NOVAGA has performed an evaluation of subsequent events through March 13, 2020, which is the date the financial statements were issued, noting no additional events which affect the financial statements as of June 30, 2019.
