A Grant Thornton
333 John Carlyle Street
Alexandria, VA 22314

Qualifications

Mr. Duong has more than 20 years of experience providing enterprise architecture, systems development, IT transformation, cloud strategy, and Agile/DevOps implementation and coaching services.

Experience

Mr. Duong is involved in a wide-range of consulting assignments covering IT business and information technology strategies, systems transformation efforts, including developing business intelligence management systems, intelligent automation, web development and cloud services.

Mr. Duong has significant experience leading Agile IT solution delivery teams, helping teams modernize software delivery models using DevOps, and effectively managing and controlling programs and projects. His clients have included commercial clients, federal and state government agencies, and organizations within the telecom, software products, engineering, and finance industries.

Sector experience

Mr. Duong leads Grant Thornton's Public Sector Digital Delivery service area and provides technical guidance and advisory across the federal sector. In addition, he founded and leads Public Sector's Robotic Process Automation Center of Excellence where he architects and designs enterprise bot constructs that can be cross leveraged across the Federal space.
