

90% of plans & initiatives fail.

Be part of the 10%.

Studies from the Harvard Business Review, McKinsey, Boston Consulting Group, and more show that anywhere from **60-90% of plans fail to meet their expected outcomes.**

Organizations don't have the wrong plans. Strategic planning, strategy execution, and integrated plan management are HARD. Current processes and systems are simply not built for plans that are integrated and span across departments and locations.

And there are REAL costs involved with leveraging manual processes and disparate systems.

How Achievelt helps

Achievelt makes it easy to focus on your most important plans and initiatives. At each stage of the planning & execution process, Achievelt eliminates the manual steps by automating update collection, report creation, insight generation, and more --- all from a single software.

So, whether your organization has 1 plan or 500+ plans, let Achievelt help connect, manage, & execute your most important initiatives.

Without Achievelt

- ❌ Progress updates are a nightmare

Why strategy leaders love Achievelt

PLAN CREATION

Easily build plans – for any planning method

Every organization has their own planning methodology. So why limit *how* you can structure your plans? Build unlimited plans, align work, & streamline processes across the organization.

MANAGE PROGRESS

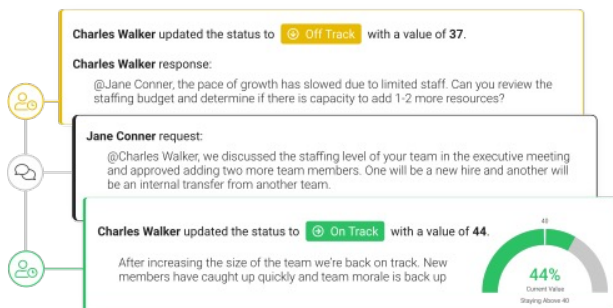

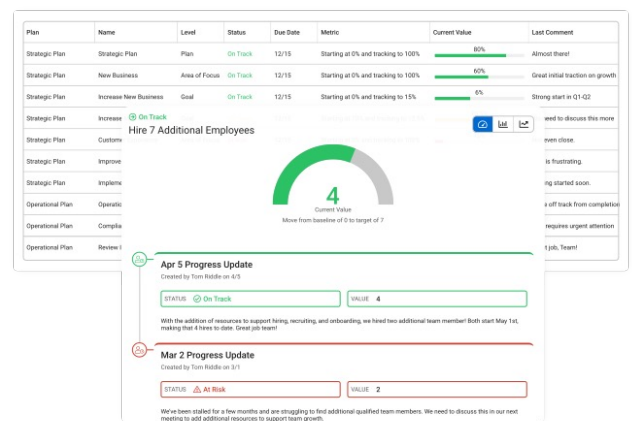

Stop chasing down updates

You aren't paid to collect updates, You're paid to make strategic decisions. Achievelt automates the entire process for you – update collection, report compilation, & dashboard creation. Now you can actually do what you're supposed to do.

PLAN MANAGEMENT

Improve meetings (& decrease them)

Make your meetings count. With progress automatically collected and updated in Achievelt, meetings can be focused on exactly what needs discussion. Spend less time giving updates and more time discussing solutions.

ASSESS PERFORMANCE

Clear visibility across the organization

No more multi-tabbed, thousand row spreadsheets. Just a few clicks enables you to see all the updates and history, on any initiative in your organization.

ACHIEVE MORE

All your plans & strategies in one place.

Create a single source of truth for all your high-level results. Whether you have 1 plan or 500+ plans, everything is connected -- from tactics to results to goals.
