Program Title	Virginia Ethics 2022 - Virginia's Regulatory Landscape for CPAs
Location	Virtual – On-Demand ONLY
Program Description	The CPA designation carries a value to each CPA. While the value is most obvious through its positive impact on professional careers, the CPA also brings opportunities for a professional to serve in volunteer roles and obtain a valued position in society. The favored status of CPA brings an expectation of good judgment, integrity, quality of character and other positive attributes. Therefore, in order to maintain the value of our profession, CPAs seek to obtain and maintain the public's trust in professionalism, judgment and skills. In large part, that is why an ethics course is required for all Virginia CPAs. These pages contain the foundation of what you need to know to maintain your license and make sound decisions while practicing every day. VSCPA designed this course to help you navigate the many different rules, expectations and constraints any CPA should consider when making decisions on a daily basis.
Learning Objectives/ Discussion Topics	When you complete this course you will be able to: <ul style="list-style-type: none"> • Describe the difference between law, regulation, policy and ethics • Demonstrate sound ethical judgment using the code of professional conduct • Outline the rules that govern the profession in the Commonwealth of Virginia
