Tech Thursday Presentation February 4, 2021

8:30 a.m. – 9:00 a.m. Eastern

Transform Your Organization to a Digital Enterprise

Fill up your coffee cup and join us for this informative presentation on Thursday February 4 from 8:30-9:00 a.m. Eastern! Twenty-minute presentation followed by ten-minutes of Q&A.

A Digital Enterprise is an organization that works closely with IT to conceptualize and build digital products and services enabling frictionless organizational focus on the mission, at scale. By changing the IT operating model, agencies create agility to support rapidly changing priorities by leveraging digital capabilities.

Join this presentation to learn about an approach to building the necessary roadmap to transform your organization to a Digital Enterprise.

Moderator: Todd Hager, Vice President, Macro Solutions

Speaker: Dan Jenkin

Dan Jenkin is a Vice President and Enterprise/Solutions Architect with Macro Solutions, a DC-based, mid-tier information technology and management consulting firm that helps companies and government organizations select, implement, modernize, integrate and maintain critical end-to-end mission solutions. Dan has an MBA from College of William and Mary, a math degree from Hampden-Sydney College and certifications in Enterprise Architecture, Lean Six Sigma certifications and Project Management. Dan lives in the Silver Spring, Maryland with his wife and two daughters.
