Scott Gibbons
Chief Data Officer
U.S. Department of Labor

Scott Gibbons has served as the Chief Data Officer since March 2019. In that role, he provides oversight and leadership for the U.S. Department of Labor's (DOL) efforts to develop, maintain, share, and utilize data to best support DOL's mission. He leads the Data Board, which serves as the Department's data governance body, and oversees the development and establishment of coordinated Department-wide positions on data governance, strategy, quality, Band the management of data as a strategic asset.

Prior to this, Gibbons worked in various analytical and statistical capacities for the Department of Labor for more than 20 years. He most recently served as Program Manager for Data Analytics for the Chief Evaluation Office at DOL. In this capacity, he led projects assessing and improving data quality and raising the capacity of staff to use data to inform program administration. Prior to that, he was a Supervisory Statistician with the Bureau of Labor Statistics, and the Employment and Training Administration. He holds a Bachelor of Science in Biology from the University of Maryland and has a master's degree in biology from American University.
