About Results for America

Results for America helps federal, state and local government leaders find, fund and implement solutions that work to accelerate economic opportunity and improve lives. Results for America works with decision makers at all levels of government to increase their use of evidence and data in budget, policy, and management decisions.

We've helped government leaders shift more than **\$52 billion in public funds toward proven programs.**

Public Opinion Supports Evidence-Based Policy

- **Strong majorities (89%) support "evidence-based" policymaking; nearly half (48%) strongly support it.**
 - 90% of Democrats
 - 91% of Republicans
 - 86% of independents
- **92% believe that looking at evidence of what works will help government make progress solving problems instead of doing the same things year after year.**
- **Only 18% of voters believe evidence influences policymaking a lot.**

Source: [Survey](#) of 1,038 likely voters nationwide to study voters' views on evidence-based policymaking, conducted by Echelon Insights
